Building on a tradition of excellence, Criminal Behavior: A Psychological Approach is accurate, well-researched, contemporary, and comprehensive. Cumulative risk/cascade models, integrated throughout the book, help students envision the specific risk of developing antisocial behavior as well as the preventive factors that discourage it. This distinguishes the text from other fine textbooks on crime, which are generally more sociology-based. As Freud notes in the Psychopathology of Everyday Life: Although the ordinary material of speech of our mother-tongue seems to be guarded against forgetting, its application, however, more often succumbs to another disturbance which is familiar to us as slips of the tongue.You can download a free full-text PDF of this classic publication via the following link.Psychopathology of Everyday Life This Psychology Symbol - Vintage Retro Striped Sunset T-Shirt is available from Amazon (prime eligible) in a range of colors for women and men. Watson and Rosalie Rayner is one of the most infamous research articles ever published in the history of psychology. In addition to downloading the material posted here you can get completely free access to an outstanding collection of the most influential journal articles ever published in the history of psychology via the following link.Classic Psychology Journal ArticlesI really hope you enjoy reading these timeless classics.David Webb (Owner, writer & host of All-About-Psychology.Com)DisclaimerPlease note that as historical artifacts the texts presented here do not follow modern writing conventions e.g. gender neutral pronouns. Now in the Eleventh Edition, you'll find crucial updates relating to crime definitions and DSM-5 categories, as well as the most current statistics and recently proposed models and theories. Each article is presented in its original context and some of the ideas expressed by the authors may be considered offensive. 422 Motives 424 Shoplifting by Proxy 425 Shoplifting as an Occupation 425 Methods of Shoplifting 426 Kleptomania: Fact or Fiction? 396 Who Are the Child Victims? 220 Competency and Criminal Responsibility 221 Incompetency to Stand Trial 221 Criminal Responsibility 224 Insanity Standards 227 Guilty but Mentally Ill 230 Unique Defenses and Conditions 231 Posttraumatic Stress Disorder 231 Dissociation 233 Dissociative Identity Disorder 234 Dissociative Amnesia 235 Mental Disorder and Violence 236 Research on the Violence of the Mentally Disordered 237 The MacArthur Research Network 238 Police and the Mentally Disordered 239 Mentally Disordered Inmates 239 Dangerousness and the Assessment of Risk 241 The Tarasoff Case 241 Violence Risk Factors and Measures 243 Summary and Conclusions 245 Key Concepts 246 • Review Questions 246 Chapter 9 Homicide, Assault, and Intimate Partner and Family Violence 247 Chapter Objectives 247 Definitions 249 Criminal Homicide 250 Aggravated Assault 251 Demographic and Other Factors of Homicide 251 Race/Ethnicity 252 Gender 252 Age 253 Socioeconomic Status 253 Circumstances 253 Weapons 253 Box 9-1: Guns, Crime, and Cumulative Risk 255 Psychological Aspects of Criminal Homicide 256 General Altercation Homicide 257 Felony Commission Homicides 258 Juvenile Homicide Offenders 259 Box 9-2: Boys, Girls, and Homicide: Why and How do They Do It? Drawing on personal anecdotes and real life examples, Freud explores the psychological mechanisms underpinning such things as the forgetting of names and order of words, mistakes in speech and mistakes in reading and writing etc. When Abraham Maslow introduced the world to Humanistic Theory, a 'third force' in psychology was born (Behaviorism & Psychoanalytical theory being the first and second). Boxes have one of three themes: Contemporary issues (e.g., psychology's role in interrogation) Recent research (e.g., bystander apathy) Programs (e.g., treatment for sex offenders) Valuable study tools help students set chapter goals, interpret core material, and assess their understanding. His ground-breaking work within the field of social learning and social cognitive theory led to a paradigm shift within psychology away from psychodynamic and behaviorist perspectives. These boxes, often used by instructors as extra assignments, focus on hot topics — Internet-facilitated crime, corporate psychopaths, school safety drills, and more — encouraging debate and discussion among students. Two chapters on sex offending have been extensively revised with the most current definitions, theories, and topics. The Most Current Coverage Important contemporary topics and relevant examples are covered in depth, engaging students and helping them connect theories and research to real-life situations. A Wealth of Valuable Learning Tools Time-tested pedagogy and numerous text features help students organize and visualize important material, assess their knowledge, and maximize the learning potential. It draws attention to a growing problem and the closer research attention given to this crime among different groups. Years ahead of its time, On The Witness Stand: Essays on Psychology and Crime explores issues that are just as important and relevant today e.g., witness memory, suggestibility and false confessions.You can download a free full-text PDF of this psychology classic via the following link.On The Witness Stand: Essays on Psychology and Crime Condoned Emotional Reaction by John B. The views expressed are the personal opinions of the authors and in no way represent the personal opinions, values and beliefs of All-About-Psychology.Com CLICK HERE for a free full-text PDF of Sigmund Freud's Dream Psychology: Psychoanalysis for Beginners. Among the chapters in this famous book are: Why The Dream Disguises The Desires, Drawing on a range of perspectives including Marxist thought, cultural history, evolutionary phylogeny and lifespan development, Vygotsky made a lasting contribution to our understanding of the relationship between language and thought, the psychology of art, pedagogy and the psychology of play, in particular the process of self-regulation through creative play.This landmark article - which was originally given in the form of a speech - provides several key insights into Lev Vygotsky's theories of play. 358 Ages of Sex Offenders 359 Recidivism and Offending History 359 Applying Crime Scene Analysis to Predictions of Recidivism 360 Attitudes and Myths That Support Rape and Other Sexual Assaults 362 Cognitive-Perceptual Distortions in Communication 363 The Influence of Pornography 363 Classification of Rape Patterns 365 Massachusetts Treatment Center Classification System 366 Box 12-2: Sexual Burglary 368 The MTC: R3 368 MTC Version 4 370 The Groth Typology 371 Treatment of Sex Offenders 372 Summary and Conclusions 374 Key Concepts 375 • Review Questions 375 Chapter 13 Sexual Abuse of Children and Youth 376 Chapter Objectives 376 Incidence and Prevalence of Child Sex Abuse 378 Box 13-1: Sexual Abuse: The Shame of Juvenile Corrections 379 Situational and Victimization Characteristics 381 Incest 383 Types of Sexual Contact 383 Psychological Effects of Child Sexual Victimization 384 Characteristics of Child Sex Offenders 384 Age and Gender 385 Selection of Victims 386 Backgrounds 386 Interpersonal and Intimacy Deficits 387 Cognitive Distortions 388 Neurocognitive Functions 388 Recidivism and Risk Assessment 389 Risk Assessment 390 Classification of Male Child Sex Offender Patterns 391 The MTC: CM3 392 The Groth Classification Model 394 Female Sex Offender Typology 395 Internet-Facilitated Sexual Offending 396 Who Are the Offenders? Coverage of intimate partner violence (IPV) is highlighted, and includes research on IPV in special populations — older individuals, law enforcement families, same-sex couples, and dating adolescents. Examples using the recent terrorist attacks, child abductions, cyberbullying, the Norway shooting spree, and the Aurora, Colorado incident pique students' interest and keep them up to date on the world around them. Find out today!Read More May 26, 22 02:56 AMExcellent article on the '36 questions of love' published in 1997 as part of scientific research into relationships by Arthur Aron. Numerous topics — such as intimate partner violence, juvenile sex offending, terrorist recruitment, elderly abuse, and sexual burglary — now receive more extensive coverage than ever before. May 29, 22 05:52 AMDo opposites attract? Treatment and prevention strategies are also thoroughly covered. Not only did he boast a great name and outrageous moustache but Münsterberg was also a passionate advocate of forensic psychology. 410 Gender Differences in Methods and Patterns 410 Property Taken and Disposed 410 Motives 412 Burglar Typologies 413 Psychological Impact of Burglary 414 Home Invasions 415 Larceny and Motor Vehicle Theft 416 Motor Vehicle Theft 416 Fraud and Identity Theft 417 Box 14-1: Identity Theft—Anyone Can Be Victimized 418 Shoplifting 420 Who Shoplifts? A complete chapter on psychopathy, arguably one of the most heavily researched topics in the psychology of crime, is included. As the name suggests, humanistic theory concerns itself with characteristics which are distinctly human.Arguably the best known example of such a characteristic is Self-Actualization, an innate motivating force unique to the human species. K12 Educators: Contact your Savvas Learning Company Account General Manager for purchase options. A comprehensive psychological approach to criminal and antisocial behavior. NEW! DSM-5 classifications are used as relevant, enabling students and professors to stay abreast of changes from prior DSM manuals. The free texts available on this page form part of an initiative to make important and iconic psychology publications widely available. Originally published in 1920, Conditioned Emotional Reactions remains among the most frequently cited journal articles in introductory psychology courses and textbooks.You can download a free full-text PDF of this psychology classic via the following link.Conditioned Emotional Reactions The Psychopathology of Everyday Life is arguably one of Sigmund Freud's least technical and, therefore, most accessible publications. This contributes to the understanding of the major global concern, but also stresses the reality of domestic terrorism. 52 ADHD and Criminal Behavior 53 Conduct Disorder 54 Oppositional Defiant Disorder 55 Summary and Conclusions 56 Key Concepts 56 • Review Questions 58 Chapter 3 Origins of Criminal Behavior: Biological Factors 59 Chapter Objectives 59 Genetics and Antisocial Behavior 60 Behavior Genetics 60 Studies of Twins 61 The Twins' Early Development Study 63 Twin Study of Child and Adolescent Development 64 Adoption Studies 64 Molecular Genetics 66 Psychophysiological Factors 66 Temperament 67 Environmental Risk Factors 70 Neurotoxins 70 Lead 71 Cadmium 72 Manganese 73 Mercury (Methylmercury) 73 Protective Properties of Micronutrients 74 Prenatal and Postnatal Malnutrition 75 Box 3-1: Malnutrition in Infants 75 Nicotine, Alcohol, and Drug Exposure 76 Traumatic Brain Injury 78 Brain Development Abnormalities 79 Hormones and Neurotransmitters 80 Neuropsychological Factors 80 Summary and Conclusions 81 Key Concepts 82 • Review Questions 82 Chapter 4 Origins of Criminal Behavior: Learning and Situational Factors 83 Chapter Objectives 83 Behaviorism 85 Skinner's Theory of Behavior 86 Behaviorism as a Method of Science 86 Behaviorism as a Perspective of Human Nature 87 Skinnerian Concepts 87 Operant Learning and Crime 88 Social Learning 89 Expectancy Theory 90 Imitational Aspects of Social Learning 91 Differential Association-Reinforcement Theory 92 Frustration-Induced Criminality 94 The Socialized and Individual Offender 94 Frustration-Induced Riots 95 Frustration and Crime 96 Situational Instigators and Regulators of Criminal Behavior 96 Authority as an Instigator of Criminal Behavior 97 Box 4-1: National Security Interrogations—Psychology's Role 100 Deindividuation 101 The Stanford Prison Experiment 103 The BBC Prison Study 104 Deindividuation and Crowd Violence 105 The Bystander Effect 106 Box 4-2: Do Security Cameras Affect Bystander Apathy? 260 Psychological Characteristics of Juvenile Murderers 260 Treatment of Juveniles Who Kill 262 Intimate Partner Violence 262 IPV among Older Adults 264 IPV among Hispanics 264 Same Sex or Nonheterosexual IPV 265 IPV within Law Enforcement and Military Families 269 Psychological and Demographic Characteristics of Abusers 267 Family Violence 268 Prevalence 269 Victims 269 Child Maltreatment 271 Missing, Abducted, Runaway, and Throwaway Children 273 Munchausen Syndrome by Proxy 274 Abusive Head Trauma 275 Infanticide 276 Neonaticide 276 Filicide 277 Elderly Abuse 278 Sibling-to-Sibling Violence 280 Child-to-Parent Violence 281 Multiassaultive Families 282 The Cycle of Violence 283 The Effects of Family Violence on Children 284 Summary and Conclusions 285 Key Concepts 286 • Review Questions 287 Chapter 10 Multiple Murder, School and Workplace Violence 288 Chapter Objectives 288 Investigative Psychology 289 Forms of Profiling 290 Psychological Profiling 290 Suspect-Based Profiling 291 Geographical Profiling 291 Crime Scene Profiling 292 Equivocal Death Analysis 297 Multiple Murders 298 Definitions 299 Serial Murders 300 Choice of Victims and Modus Operandi 301 Geographical Location of Serial Killing 302 Ethnic and Racial Characteristics 302 Risk Factors and Psychological Motives 303 Research on Backgrounds 303 Female Serial Killers 304 Juvenile Serial Killers 305 Mass Murderers 305 Public Mass Shootings 306 A Mass Murder Typology 308 School Violence 310 School Shootings 311 Box 10-1: Safety Drills in Schools: Unanticipated Consequences 312 Psychological Characteristics of School Shooters 314 Workplace Violence 315 Categories of Workplace Violence 316 Perpetrators of Workplace Violence 319 Summary and Conclusions 320 Key Concepts 321 • Review Questions 322 Chapter 11 Psychology of Modern Terrorism 323 Chapter Objectives 323 Definitions and Examples 325 Classification of Terrorist Groups 328 A Terrorist Typology 330 Followers and Leaders: Who Joins and Who Leads 330 Why Do They Join? 470 Gender Differences in Juvenile Drug Use 471 Consistent Findings on Illicit Drug Use 471 Tripartite Conceptual Model 474 Major Categories of Drugs 475 Tolerance and Dependence 476 The Hallucinogens 477 Marijuana 477 How Is Marijuana Prepared? Connect with us to learn more. Do opposites really attract? This was the book that gave rise to what we now refer to as "The Freudian slip". Intuitive guidance through complex subject matter begins with the broad theoretical aspects of crime in the first half of the book, and continues to specific offense categories in the second half. New models present key content in a highly accessible format. An engaging and controversial figure Munsterberg was a key figure in the study of psychology within a legal context. The complex factors influencing criminal behavior are highlighted and explored. The text investigates how psychological, social, economic, political, and ecological factors all play a role in affecting individual behavior. According to Maslow Self-Actualization refers to the desire for self-fulfillment, in essence to become everything that one is capable of becoming.You can download a free full-text PDF of this classic work via the following link.A Theory of Human Motivation Albert Bandura is one the world's most frequently cited psychologists. NEW! Models of terrorist psychology offer insight into why people join terrorist groups and provide new material on domestic terrorism. This increases awareness of different forms of sexual assault — such as acquaintance rape, juvenile offending, and online offending — as well as preventive measures and treatment options. NEW! Cumulative risk/cascade models, integrated throughout the book, help students envision the specific risk of developing antisocial behavior as well as the preventive factors that discourage it. 194 Box 7-2: Treating Adolescents with Psychopathic Features 195 Ethical Considerations 196 Measures of Juvenile Psychopathy 197 Neurobiological Factors and Psychopathy 198 Genetic Factors 198 Neuropsychology and Psychopathy 198 Central Nervous System Differences 199 Peripheral Nervous System (PNS) Research 202 Autonomic Nervous System Research 203 The Dual-Process Model of Psychopathy 206 Childhood of the Psychopath 207 Treatment of Criminal Psychopaths 208 Treatment of Children and Adolescents with Psychopathic Summary and Conclusions 210 Key Concepts 212 • Review Questions 212 Chapter 8 Crime and Mental Disorders 213 Chapter Objectives 213 Defining Mental Illness 216 The DSM 216 Schizophrenia Spectrum and Other Psychotic Disorders 217 Bipolar Disorder 218 Major Depressive Disorder 219 Antisocial Personality Disorder 219 Box 8-1: Does Serious Mental Disorder Cause Crime? NEW! Coverage of intimate partner violence (IPV) is highlighted, and includes research on IPV in special populations — older individuals, law enforcement families, same-sex couples, and dating adolescents. As part of a new research agenda in the early 1960's which posited that people learn vicariously through observation Bandura began investigating aggression through imitation; work that gave rise to one of the most famous psychology studies of all time, "Transmission of Aggression Through Imitation of Aggressive Models." More commonly known as "The Bobo Doll Experiment," it was the first study to explore the impact of televised violence on children.You can download a free full-text PDF of this classic work via the following link.Transmission of Aggression Through Imitation of Aggressive Models Cognitive Consequences of Forced Compliance by Leon Festinger and James Carlsmith was the first of numerous studies to corroborate the theory of cognitive dissonance. Models of terrorist psychology offer insight into why people join terrorist groups and provide new material on domestic terrorism. Commonly referred to as "The Case of Little Albert" this psychology classic attempted to show how fear could be induced in an infant through classical conditioning. Many people think so but what does the scientific evidence say? 331 Quest for Significance Theory 332 Error Management Theory 333 Suicidal Terrorism 333 Becoming a Terrorist: The Process of Radicalization 334 Terrorist Leaders 335 Lone Wolf Terrorists 336 Boston Marathon Bombers 337 Box 11-1: The Marathon Bombing and Beyond 337 Fort Hood Shooter 338 The Times Square Bombing Attempt 338 The Psychosocial Context of Terrorism 340 Terrorist Motives and Justifications 341 Additional Disengagement Practices 342 Psychological Effects and Nature of Terrorism 343 Cognitive Restructuring 343 Moral Development 343 Summary and Conclusions 346 Key Concepts 347 • Review Questions 347 Chapter 12 Sexual Assault 348 Chapter Objectives 348 Definitions and Statistics 349 Sexual Assault in Date and Acquaintance Relationships 351 Box 12-1: Campus Sexual Assault 352 Incidence and Prevalence of Rape 353 Impact of Sexual Assault on Survivors 354 Psychological Effects 354 Physical Injury 355 Sexual Assault Vulnerability Factors 356 Situational Factors 356 Location 356 Age of Victims 356 Legal History of Victimization 357 Risk Taking Behaviors 357 Characteristics of Sexual Offenders: Who Offends? The premise for this classic piece of research was to test what happens to a person's private opinion when they are forced to do or say something contrary to that opinion. You can download a free full-text PDF of this hugely influential psychology classic in full for free via the following link.Cognitive Consequences of Forced Compliance Despite his premature death at the age of just 37, Lev Vygotsky is widely considered as one of the most influential psychologists of the 20th century. All modern humans are classified into the species Homo sapiens, coined by Carl Linnaeus in his 18th-century work Systema Naturae. The generic name "Homo" is a learned 18th-century derivation from Latin homō, which refers to humans of either sex. The word human can refer to all members of the Homo genus, although in common usage it generally just refers to Homo ...
